Grace Bible Presbyterian Church Questions and Answers 1 Charlie's Introduction, Grace Church Introduction QUESTIONS What can a Christian do in a public school situation where they are being taught Evolution? Asking the "dumb" question. (Grand Tetons and the Grand Canyon) Where did Cain get his wife? Where did the different races come from? Why did you become an Atheist as a young man and then later in life become a Christian? Was there pain, suffering and death in the world before Adam sinned in Genesis 3? What does the Bible say about today's environmental concerns? What is the best intelligent argument today for Evolution? How and when do Evolutionists say human self consciousness appeared? What evidence do you use that is not "marginal" to show Creation's credibility? How can the Universe be only 6,000 years old when some stars are millions or billions of light years away? Could life have existed on the Moon or Mars? Could there be life supporting planets in other galaxies and are there ALIENS? Is the dust on the moon an indicator of an old Universe? Did the judgement of Noah's flood effect the other planets in our solar system? CLOSING; Lake Testimony, Charlie's Closing, Theme and credits Grace Bible Presbyterian Church Questions and Answers 2 Charlie's Introduction, Grace Church Introduction, Charlie's Testimony QUESTIONS Do Heaven and Hell exist inside our Universe? If we observe a star burn out that is millions of light years away, how can the Universe be young? What about carbon dating and the other radioactive methods, don't they prove an old Earth? Aren't the fossil bones of dinosaurs and Neanderthal men very old and don't they show death before sin? If the dinosaurs were on the Ark why did they go extinct? What are the Leviathan and Behemoth that are mentioned in Job? How can scientists tell from the shape of a dinosaurs teeth what it ate? The Great White Shark certainly looks like it was designed to eat meat, but God made all creatures vegetarians. Explain this seeming contradiction. Explain the "Ice Age". Is it an indicator of an ancient Earth or is it a result of Noah's flood? How did we get all the climatic zones on the Earth? How will the "Greenhouse Effect" change the Earth's climate? If we come from one father why do we have the different blood types and the wide genetic diversity? How will our knowledge of genetics like the Human Genome project effect the arguments for evolution? CLOSING: Grace Closing, Charlie's Closing, Theme and credits
